# *Capturing love stories for over ten years*

Heather and Rob (H&R)

Your wedding day is just around the corner and it is time to start putting all of the planning behind you. It is now time to enjoy the most amazing day of your life. We are honored that you have considered us as your wedding photographer.

We have dedicated over ten years of our lives to capturing love stories for couples and hope to capture yours. We have captured over 150 weddings around Indiana and the United States. Whether your venue is in a beautiful rustic barn, quaint chapel, or anywhere in between we have the experience, knowledge, and equipment to capture your wedding as it should be.

Wedding photography to us is more than images. It is art to be documented in an elegant and timeless manner to be cherished for the rest of your life.

Do not underestimate the importance of having a professional photographer with the special skill set needed to capture your wedding. We hope to hear from you for the opportunity to capture your wedding.

Sincerely,  
Heather and Rob  
H&R Photography

## MEET US

H&R Photography is a husband and wife team (Heather and Rob) who has been shooting weddings for over 10 years around Indiana and the United States. We have two amazing little girls who keep us on our toes. We absolutely love shooting weddings and are excited to have you consider us for your day.

## PHILOSOPHY

Our approach to weddings is honestly pretty simple...we listen. No wedding is the same and preparation is paramount. From the day you decide to let us shoot your wedding we begin planning. Every wedding is unique and every couple has their own style so it would be unfair of us to provide a cookie cutter approach to your big day. We will have meetings prior to your wedding to set up timelines, get to know each other, and deliver that personal experience you deserve.

We love when we open an email and see some Pinterest ideas or other random info about their wedding so we can dial in and deliver an amazing, personalized product.

When we shoot your wedding our goal is to shoot the wedding and not become a part of the wedding. We have all been in situations in life where individuals make things about them when it should not be. We take pride in shooting a wedding and barely being noticed by all in attendance.

*"We capture weddings without taking part in the wedding. Weddings are fun, but sacred, and we focus on that sanctity."*

PROFESSIONAL  
PHOTOGRAPHERS  
OF AMERICA

*Ryan and Rachel Mummert - Flora, IN*

I have to say you have done an awesome job on your photos and the video put together from stills is amazing! Your speedy turn around has impressed numerous couples from Kokomo, Chicago, Ft Wayne to California. Not one other person can say they've gotten the photos as quickly or as nicely as you have done.  
~Anne Mummert (mother of the groom)

*April and Bill Cadby - Indiana State Museum - Indianapolis, IN*

Rob didn't obstruct any of our guests views during the ceremony or reception, he did a great job of getting important shots but still letting the guests see too. The candid shots are to die for, he nailed every shot! Action: there are amazing pictures of myself walking down the aisle he captured my emotion in every move I made. Portraits are amazing, we looked like ourselves, and we didn't even look like we were posing! Rob wasn't your typical wedding vendor, he was all about business, but he had a great personality, and sense of humor which made all of us feel at ease, as we joke around a lot.

*Samantha and Aaron Ward - Cape Coral Florida*

Rob and Heather did an excellent job of taking great shots without being noticeable. You couldn't even tell they were there. During the ceremony and reception Rob and Heather were able to capture the true reactions and emotions in the photos which I thought was awesome! Rob and Heather were always in the right place at the right time to get some great shots so we can remember our wedding day forever. Rob and Heather made Aaron, my family, and I feel completely comfortable. Everyone at the wedding loved our photographers.

**All images are delivered  
within seven days of  
the wedding!**

Our wedding packages are based on a minimum 6-hour commitment. We have attempted to keep our approach to our packages simple to understand and very transparent.

***6-hours of wedding coverage.....\$1700***

- Flash drive with all final images in high resolution
- Two photographers (male and female)
- Wedding gallery posted within seven days of the wedding to be hosted for two months
- Planning meeting about one month prior to the wedding to insure we approach your day the way you want and deserve
- \$400 print credit to purchase prints from your online gallery

***Add-Ons***

1 additional hour of coverage (both photographers) \$200

Wedding albums start at \$300

Engagement session (with wedding contract) \$200

Full line of wall art products and framing options upon request

## ENGAGEMENT SESSIONS 411

Engagement sessions are \$200 if we are shooting your wedding and \$399 if we are not shooting your wedding. With this you will receive up to two hours of time to shoot your engagement session. This time includes time to change and any travel that may occur during your session.

Approximately 1-2 weeks after the photo shoot, we will have you back in the studio to view and order your final prints and products. With your session, you will receive a \$100 credit towards your final purchase.

With engagement sessions we will not release all digital files because we take pride in seeing our artwork transformed into a tangible product for you to cherish.

Please note, during your viewing and ordering session we do ask that cell phones and other camera equipment be put away.

**Q: What makes your services different than most other photographers?**

A: We are a professional photography company with the experience, training, and knowledge necessary to shoot in any venue at any time. There is a huge misconception that just having a "nice camera" is all that is necessary to deliver a professional product and service. Through 150+ weddings, thousands of photos shoots, endless hours of study and practice, and pure passion for the craft we have dedicated ourselves to delivering a professional and fun product.

**Q: How long until we get to see our images?**

A: With our weddings we ALWAYS post final, edited galleries within seven days of the wedding. There is absolutely no reason to wait weeks (or months) to see your wedding images. After your wedding your images are our full-time job. We usually start editing the night we get back from the wedding, post some sneak peaks on Facebook and Instagram, and work only on your wedding until it is finished to our high standards. Within a week your custom flash drive and wedding information packet will be mailed to you!

**Q: What do you do to make sure our day is shot how we want it?**

A: Communication!!! From the day you decide to have us shoot your wedding we will be in contact consistently to make sure we plan for your wedding and deliver an amazing and smooth photography package. When you hire us we will ask you to complete the wedding planner which will let us know most of the important aspects of your day. About a month before we will sit down and create a schedule for your day.

**Q: We would love to have the copyright to our photos after the wedding...can we?**

A: There is a confusion between copyright and print privilege. You will get a custom flash drive (pretty cool product if I do say so myself) with full print rights. We will also recommend specific labs that consumers can use to print amazing images. We do retain the copyright to all of our work so we can use your beautiful images on our website, advertising, etc. All of our weddings come with the custom designed flash drive. Click here to see an example of a custom flash drive.

**Q: How many photographers will we have at our wedding?**

A: All of our packages include two professional photographers...one male and one female...to capture all the important parts of your day. There are certain parts of the day where the bride really doesn't want a guy in there taking photographs. This also allows complete coverage of your day. If you would like a third (or fourth) photographer we can provide that if you would like to customize your package to cater to your needs and wants.

**Q: What kind of equipment do you use?**

A: We shoot with high-end Canon equipment and lenses. We currently shoot with Canon 6Ds, 5D Mark IIIs, and Canon 70Ds (great for video work). We have more invested in high-end lenses than our first car cost. In addition to the camera equipment we have a full lineup of lighting equipment, reflectors, umbrellas, soft boxes, light meters, etc. that gives us the ability to shoot your wedding in a professional manner.

## Maple Wood Prints

Striking prints with a warm and natural feel, printed on certified sustainable maple wood board.

Wood Float Hanger

Mounts the Wood Print 1/2" from the wall for a "float" effect.

Wood Float Hanger with Optional Cleat & Hardware

Mount the Cleat to the wall to easily and securely hang the print from the Float Hanger.

Keyhole Mount

Allows the Wood Print to hang flat against the wall.

Maple Wood Prints are printed directly on to 1/2" thick maple surfaced wood board, for a warm and natural-looking print that is also eco-friendly.

The grain and other characteristics of the wood shows through the light and white areas of the image for a natural warm tone and vintage feel. We can also print a white ink underlay on the wood to make the true colors of your image pop. Both of these options allow the beautiful wood texture to show on the surface of your print. Each wood print is unique and no two prints will look precisely alike.
